“ *I saw you in my dream last night. You were dressed in white standing on a beach. You saw me. You are missed beyond words. We met as teenagers and walked to school every day and remained friends. You were talented in so many ways. We shared the same interests only you were accomplished and soared. We had so many laughs. I miss talking to you. Sharing recipes books, gardening, sewing, old memories from Allentown. You were so kind and generous. I shall never forget. You live on in my heart. Condolences and prayers to your very special family  
Until we meet again. Love——Nancie

“ *Bodie's garden was always beautiful, she had statutory bunnies quite small that blended right in with garden and flowers, and other unique garden items placed in the perfect spot. She was very kind to animals as I , and this is how we met. I miss you my friend, your kind heart and soul, until we meet again 🐰*
