“ *When Karen was 5 years old, she decided to cut her hair with scissors. I don't know if anyone has a picture, but it was a disaster. Karen was always creative. One of her pets was a skink, a sort of snake with legs, actually a lizard. Most of the family remember when she was feeding a mouse to her boa constrictor, and it tried to eat her hand. Karen was a hippie, but she became a patriotic American. On September 11, 2001, she called us to determine whether Patrick was flying that morning, but he was in training with Delta. in Minnesota.*
